The only thing that's stopping you from being whatever you want is just a wall in your mind you built yourself.

Aleksandra Vujović

We are never going to be fully free. There's always going to be someone or something that's stopping us. At least that's what we think. Nothing can put us in a cage or lock us down if we cross over the one obstacle that we build by ourselves growing up. People tell us we can't do this or that, but it's not true. We can do whatever we want and that's our freedom.

Aleksandra Vujović

Freedom can mean a lot of things to different people. I'm only 18 years old and

Freedom is non – being.

In life one is given a choice between two forms of bandage.

That choice us not free. Any choice implies the presence of mill & a mill cannot be free.

Za mene je sloboda imati pravo razmišljanja u sebi ili na glas. Biti ono što jesi, ne skrivati se. Izraziti se u umjестnosti ali na bilo koji drugi način. Volim pustiti glazbu i zaplesati bez da me drugi ljudi osuđuju. Dok plešem tada se osjećam slobodno.

Sloboda je stvorena u mukama. Sloboda je moć. Sloboda je simbol našeg života. Sloboda je neprocjenjivi dar. Sloboda pokreće. Sloboda stvara prijateljstvo. Sloboda je voljeti i ljubiti. Sloboda je ljepota stvaranja.

Sloboda je bez straha, bez stida i bez nelagodnosti i straha od osuđivanja iznijeti i izreći svoje strahove, mane, vrline i strasti. Svoje mišljenje i ljubav prema nekome treba iznositi s strašću i bez straha jer sloboda je biti ono šta jesi pred cijelim svijetom. Sloboda slobodnog uma i čovjekove duše i osjećaja najdragocjenija je sloboda.  
Anamarija Miletić

To me, freedom means equality. It means the ability to be fully yourself without anyone judging you for it. Freedom sees no race, gender, sexuality or religion.

Sloboda je ne razmišljati o tome tko će što reći o tebi i tvojim djelima, nego moramo vjerovati u sebe. Sloboda je razmišljati pozitivno. Sloboda je imati svoj stav.  
Martina Čančar

The price of Freedom is hearing things you don't like. These are non-issues. Sloboda je mogućnost duševnog mira, gdje možemo opušteno izdahnuti i sagledati svijet.

Paolo Kapović Šamanović

Za mene je sloboda kada radimo nešto što volimo i želimo, a da nas nitko kasnije ne osuđuje. Kada možemo imati svoje mišljenje, a drugi ne sudjeluju u njemu.

Bruno Polanović

Sloboda je biti bezbrižan i raditi šta želiš.

Svi imamo slobodu, ali neki je ne žele iskoristiti. Sloboda je uživanje u životu.

Sloboda je voljenje samoga sebe bez obzira na izgled.

Tena B.

Sloboda je raditi što voliš. Sloboda je biti svoj i ne brinuti o osuđivanju. Sloboda je dijeliti s drugima svoje misli i ideje. Sloboda je uživati u glazbi i plesu. Sloboda je stvarati svojim golim rukama. Slobodan čovjek je sretan čovjek s onim što ima. Sloboda je pustiti glas.

Hana P.

Sloboda je kada možemo reći svoje mišljenje bez osuda. Sloboda je pogleda na bolju i sretniju budućnost. Svaka zemlja i svaki pojedinac ima pravo na slobodu. Slobodu nam nitko ne može uskratiti.

Mihaela Lustig

Sloboda je kada se nada ostvari. Biti sloboda je znati sretno živjeti. Sloboda je beskrajna misao. Kada ništa ne osjećam, kada mi je duša čista kada plešem, tada lebdim, to je sloboda.

Helena Rendulić

Dream, live, Achieve. I have been broken, limited and closed inside. I didn't have power or courage to broke through my shell. That all changed since someone entered my life. All we really need is that someone to right there with us. Be different, don't be usual, let someone new in your life, make a change.

Thank you. JPGSRT 01.11.2017.

Neki roditelji brane djeci dosta stvari. Ne mogu ići van s prijateljima, neki ne mogu/ne smiju imati curu/dečka. To nije sloboda. Sloboda je imati svoje mišljenje, stav, razmišljanje. Sloboda je pored razmišljanja među najvažnijim faktorima u životu. Mnoge žene nemaju slobodu nakon udaje. Muž je u svemu glavni. Dajem ovu usporedbu jer gotovo 80% žena u svijetu nema slobodu. Tome treba više biti kraj. Svaki je čovjek rođen slobodan. Treba živjeti, pa i umrijeti slobodno.

Kristina Matić

Sloboda je moć, sloboda je žar. Sloboda je sreća, sloboda je dar. Sloboda je snaga, koja može pobijediti sve. Sloboda govora, sloboda mišljenja, slobodna volja. Sloboda bez ograničenja. Sloboda je racionalno razmišljanje. Sloboda je ljubav. Sloboda je vjera, sloboda je nacionalnost.

Biti slobodan, znači biti svoj!

Ena C.

Sloboda je za mene najveći dar koji čovjek može dobiti. U svijetu postoje ljudi koji nisu sretni sa svojim načinom življenja, bez obzira jeli to siromašna ili bogata država. Sloboda bi trebala davati pravo za iznos svojih mišljenja, pravo na iskazivanje svojih nezadovoljstava na donošenje odluka koje su ispravne i prihvatljive za sve vas, a ne se obazirati i zaustavljati na nečije druge želje i

zahtjeve. Sloboda je način lijepog življenja. Sloga je nepotrebno obazirati se na ostale već uživati u onome što voliš. Jer Bog će uvijek svakom dati samo treba vjerovati ☺

I think freedom is being able to be who you want without having people look at you for the wrong reasons to be proud of how you look and who you are without having to hide just to fit in. To live pressure free to not care about where you are from or how your body looks. Freedom is for me being able to express yourself and still being loved.

I think that everyone's freedom is not because we are legally free we feel free :) freedom is only real if the care inside wants it well I do not know if it is pretty clear but here it is :) for me there are different freedoms and the one that will determine each human being is the freedom to be who we are because once we accept and choose to love we feel free.

Vrijheid betekend voor mij ... Je zwlf kunnen zijn en niemand hebben die dit tegen houd

For me freedom is when one expresses his opinion, his choice without necessarily having answers negative or despicable in return. To be free from his words  
Fellissya

Well, for me freedom is when you are totally disconnected by the „toxic things“ like judgement, interpretation, the eye of others, your negative thoughts about yourself and stuff like that. You will not need feel free for the rest of your life. I mean it grows. There will be period you feel free and period you will not,

and it's okay with that, we're still humans. I mean freedom is like happiness in that way.

Romane

Freedom to me starts inside of ourselves. There is in each of us a place where no one can reach us. There we are totally free. That feeling can shine outside of us when we connect to it.

Hey na na

Hey na na

Hey na na - hey na na ... FREEDOM

The most important thing is to be able to make your own choices in your life. There should be no leevadain that restricts the way you live your life.

Expressing my opinions

Drumming

Bauhegyi Karahi

(Right to choose)

I think this is the 1st thing that I can say. Maybe we have opportunity to choose what we wanna do for example what you wanna listen, read. But there are situations where we can't do that e.g. education system. I try to be free, I try to find the best way to be able who I am or who I wanna be. I try to understand other people too.

For me, freedom is the free mind and soul. The way to free creation and love, which leads us to a higher quality of life. The experience that can help us rise and awake.

Dominik Gyarmati

For me, freedom is when I can express my feelings. When I can express my thoughts, my opinions about things, even things like politics. When I can express myself, when I can show my identity, without the fear of not being accepted.

Freedom is when I can choose. Freedom is being alone, being no one to take care about. Being self- sufficient. Freedom is one of the most important things in my life. Actually in everyones life. I'm not free as long as I'm a kid. I's not free in a country like this (Hungary) where I can not be honest about what I think or what is my political opinion.

Freedom is how and where you feel great

## FREEDOM SOMETHING WORTH FIGHTING FOR

The right to do anything

Freedom is the ability to have a choice. It is being able to control your own life, do what you want to do. Freedom does not necessarily mean being unsupervised, it means that the choices you make, the things you do are not intercepted by other people, governments.

Freedom is that today country borders aren't barriers

Freedom of thoughts Imagine living in a world without the freedom of your own thoughts. That is not the what you would like to live like, right? So please start to appreciate what you have, and live up to it!

Freedom to me is means that I live my life the way that I want, I make my dreams come true and don't repeat anything. In my life music had the biggest impact on me, it helps me to always look to the future and to feel happy. Music is my freedom.

Magyari Lilla

Freedom is, when we don't have to do anything compulsory when we have the opportunity to choose. We should have freedom in school, travelling and in creating something new.

Zsofi Pesti

Freedom is that I can dream and speak. No one can set barriers on that.

Ocali Rebeka

For me freedom means being able to move. That you're not tied to a place physically or mentally either. That you can always move, you can always grow.

Csaki Lilla

Freedom. For me freedom means being able to get those things that are needed for our lives e.g. staying alive. Having the correct health - care options and to be able to buy all those needs.

Sandes Blanka

Freedom for me means that I can express myself, I can dream and fulfil those dreams, I can choose my future and shape it however I want it to be.

Nagy Petra

Freedom is like light because when there is light every act of ours is easier to do. We need it to do our acts. In conclusion, we need it to life.

Flora

Freedom is like light which travels millions of kilometres until it touches your skin and brings heat and happiness to your body and soul.

I think the most important is that I can learn whatever I want and I can be what ever I want with the help of my parents, friends, and teachers.

Freedom for me is equal with the opportunity to travel and to fall in love. If I want and I can I will go to university in a foreign country. It wasn't this easy 10-20 years earlier when our parents were young. I am happy about that we have less strictly possibilities now.

To tell the truth, I don't appreciate freedom enough because it feels natural. I hate being told what to do and that's why I don't like school. They made us do

things we are not good at in high school and teachers don't concentrate on a student's strong abilities. I can't even imagine not being free. I feel I can do almost anything I want, it only depends on me and my determination. Nowadays nothing seems impossible. But I am not aware enough of the world's things so , I can't tell that. in high schools we are very restricted so i can't wait to go to college.

Freedom for me, means that people of Hungary can freely travel, government doesn't the social media, and we can take part in the voting about the country's serious questions.

Freedom to me means freedom of speech and free thinking. I think it's one of most important things in the world. Our parents did not have freedom when they were young. I think 50 years from now, freedom will be granted, but us thinking about is is going to fade away.

Freedom is the way between you and your dreams. With freedom you can do whatever you want and you can be whatever you want to be. In the past people were censored and they didn't let them to have own thoughts. Every government word they was were given in their mouth. I'm looking for a bright future and freedom will always be a thing.

Raez Martin

Freedom to me means that you are about to do what you want and you do it. I think that freedom is a thing everyone should have. It means to me that I can do what I want to do, be where I want to be and live a life I want to live. It should be a thing that nobody can take away from you. Freedom is really powerful thing. If you have freedom you can have anything you want.

Karacsony Lilla

Freedom is the ability to declare opinion without the fear of its side effects on one's personal life.

Freedom to me is that I can express my opinion in every way that I want

- that I can wear anything I just want
- that I can get to grow up in a country without war issues
- that I have the possibility to not just get education but to learn languages which I think is important.

Freedom to me is non of my parents and friends or me are ill and the people I love are healthy.

Fodor Sara

Freedom to me is not depending on anything or anyone - especially not money. Freedom to me is the ability to travel and do what I love. The ability to live and go to school where I want to - in any country. Freedom to me is to be able to make decisions for myself.

Ghaj Anna

- TRAVELLING
- DOING WHAT YOU WANT / WHAT YOUR DESIRES ARE

infinitely many opportunities possibility to travel anywhere

Freedom

- responsibility
- limited ability to decide - self expression

To have infinitely many options. Not to have a limit in my dreams. Not being afraid of the future.

To have a choice and a say. To be able to happy and to be able to learn about the world.

Anna

To be able to love what/who you want

Freedom means that I'm free to do what I want and no one tells me what I must to do cause I's free e.g. I can travel anywhere, I have choice almost in everything.

Freedom to me is when I can choose, I can be who I want to be, what I want to do.

For me, freedom is when I's able to think, do and like whatever I want. I think the freedom what we are living in today will disappear soon.

Freedom. I think every person desires freedom. It symbols our true feelings and the chance to do anything we want and to make us feel comfortable and in control. It can be hard making choices but most of the time it's worth it.

Freedom. I think freedom is when you are able to do, think or create anything you want and nobody can control you. And also you can travel/ go wherever you want. It is about the possibility. If I would totally free (in finances too) I would travel around the world with my friends and family and taking photos. When I grow old I would show these pictures to my grandkids.

Freedom is live without judges. be in love with yourself. Follow your goals and don't accept less. Don't change because of others. Don't think that you have to do what others say t do. Don't afraid to be different.

Freedom is when you don't care about time, money, the past and the future. Freedom is when you can live the moments and you can enjoy everything.

Freedom is when I can freely decide to be trapped in my everyday or try to become a spirit that flies beyond it.

not limitless, need consensus

My freedom is

- expressing my opinion
- not worrying about what will happen tomorrow
- travelling where I want to
- people not telling me what to do
- choosing to live my life the way I want to

Lilla Lente

The freedom means to me expressing my thoughts, and not being judged by others. It also means to me that fly and travel wherever and whenever I want and not to worry about the money what will happen with me during the journey.

to be with my family and friends

For me, freedom is that I can do whatever my heart desires.

you are free when you can be your true self and do whatever you are really passionate about. my freedom is when I can think freely.

Zsofi

You can travel anywhere at any time

Freedom is when you can choose what you want to do by yourselves and nobody will stop you doing that thing.

Freedom is important because we are not machines, humans need their space, to be creative.

Freedom is having TIME for beautiful things in life.

It's a precious thing that everybody has the right to experience. Freedom is love, Freedom is life.

Freedom is the ability to choose

M.K. Mark

For me freedom is the time when I can do anything no one tells you to do this or this, you can make your choices.

For me, freedom means that I don't have to live according to the expectations of others. That I can do things the way I want to and I can fulfil my own expectations. Freedom means that I have the opportunity to be the way I want to and I don't get discriminated for using that freedom for being me. Freedom means not being limited and having the possibility to work and going for my dreams and will.

Freedom means raising my voice in cases that are important to me like family issues or young children's future. I think freedom is letting people know how I feel or telling my opinion. Freedom is travelling to many different countries, living there for a year or two without knowing anyone at all. Freedom is creating a good life in these countries.

What is freedom? Freedom means everything to me. It means that I can do whatever I want. I don't have strict rules in my life. It's time that I have to do what elder people say, but it's not like that I still have freedom. And I love it. I can do whatever I want. Go and hang out with my friends or stay home all day and sleep 1 hour. I know it sounds stupid but that is freedom for me.

Everybody needs freedom. And it means different things for different people.

You need freedom. But if you don't have it, you can't imagine how it is. If you had freedom earlier you can feel that you're missing it. But if you never had it, you can't miss it. You can just imagine how it is. But if you want, and if you do for it, you can get the freedom.

Freedom is when you have your own decision about your life and future.

FOR ME, Freedom is when I can be anything I can imagine and nobody hates me for that. It doesn't matter what I think what I feel, how I look - these are no LABELS.

Olivia Irett

Freedom for me is when I have the choice to change my own life. Freedom is when you can be anything what you want. Freedom is when you can express yourself without any conflicts.

Fszuzsina Feher

Freedom for me is doing what I like.

Freedom to me means doing whatever you want. But it isn't that simple. having freedom to me means using it in a beneficial way. But what is beneficial? in my opinion inspiring someone, adding something positive to our world but even just expressing yourself is beneficial. So by doing whatever makes you feel like yourself or just makes you feel good. Freedom is making the world a better place.

Freedom is the situation in which you can do as you want and nothing disturbs you in the realisation of your dreams.

The freedom is a situation when we can make the ideal environment for yourself when you can improve yourself and you can enjoy the life.

When I can start anything I'm sure that these is the possibility to make it happen or make it be. I'm sure that i'll have others who have the same aid as me. This is freedom for me.

Freedom is the ability to accept and love everyone without judging them, regardless of where they come from, they are and what they do. To me it also means going outside with my guitar and sharing the joy of music with random strangers.

Freedom for me means that I can do things in a different way. Sometimes I don't even know what I'm doing, I have know idea or reason but if it feels good I think I should do that. One of my favourite things is clothing. Although I can not wear sometimes that different I want because my mom tells me not to do so it feels amazing when I can just match totally different style.

Freedom is when your happiness only depends on your own choices and decisions. When your creativity can fly without limits set by others. It's a big responsibility but that's one of the main thinks that makes us human.

Freedom is when you are allowed to do anything and have the chance to do it as long as it does not harm others and is allowed by laws of physics.

The limitless freedom for me is to listen to my thoughts and my heart without any influencing voices.

Freedom is everything if you have freedom in everything, you can do everything.

It+s for my goodwill. It's one of the most important needs in an individual's life. I couldn't imagine living without freedom, if I had to ask for permission or simply think of whether I can do some things. It wouldn't be a life that I want to live.

Freedom is a very important thing for every people. You do not have to depend on other people and you have to do what's on your mind, and not what others say to do. Freedom is when you have time for whatever you want to do in your life.

Freedom is when we are all accepted and loved by each other.

I believe no person is free. We all are restricted somehow. Society, law, government... We can't do as we want, but we can show freedom through things as music, art, sports. Each person is different, but at the sometime they all have something in common, it's our task to find our freedom through each other, through what we love.

For me freedom means doing what I love. No one tells me what to do. Having no limits.

To me freedom means music. I'm an amateur singer and music is not just an art passion, it's my life. Living without music would be a massive torture in hell. While I'm listening music all my problem disappear, everything seems perfect, almost euphoric. When I'm singing, writing a book, listening to my favourites I'M FREE.

Life with freedom is beautiful!

Dzięki wolności możemy bezkarnie i dobrowolnie wychodzić z domu, chodzić po polu, jeździć na różnorodne wycieczki, czy latać do innych krajów, mówić to co chcemy, robić wszystko lecz zgoólnie z prawem.

Niezależność, Mitość, Tolermcja, Orientacja, Poczucie wanrości.

Swodoba gdy nie jesteśmy oraczani.
